

Argoflex photo ... 1/200 ... f:4.5  
5X red filter ... Plus X film

## For Kodacolor... use Argoflex

A superb camera for black and white, Argoflex is also ideal for COLOR... you get nine low-cost oversize ( $2\frac{7}{8}$ " square) color pictures from a 6 exposure roll.

You get what you see... right side up... on the focusing ground glass. Try Argoflex for Kodacolor (or black and white). See it at your Argus Dealer's.

### ARGOFLEX

F:4.5 lens. Shutter  
1/10 to 1/200 T. & B.
